HARVEST

STREET FAIR

Mini-Expansion

THE FAIR HAS COME TO TOWN!

Come on down and enjoy new activities, scoring opportunities, and fun. In each game of *Harvest,* a Fair Tile will come into play to add bonuses or change up a specific area of the board. For your first time at the Fair, play with the Crop Judging Contest. Next time, you can pick a Street Fair tile at random, choose your favorite(s), or bring the whole carnival to town and play with all of 'em!

FIELD FAIR

Place next to The Fields on the board. Whenever you Harvest, gain bonus Points or Coin(s) for harvesting varieties of Crops—in addition to the normal Coin bonus.

BASKET FAIR

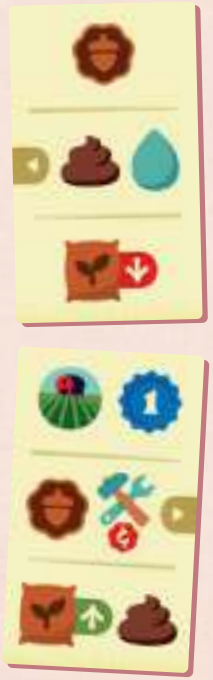

Place above the Fall Festival Board. This provides an additional Action Space where you can use your Basket. You may complete these actions in any order.

TRADING POST FAIR

Depending on the arrow, place this tile on the Left ◀ or Right ▶ side of the Trading Post and cover its actions on the board. These are new costs on the Left or new actions on the Right.

Downgrade a Seed to the type below. Wheat may not be downgraded.

STORE FAIR

Place this tile at The General Store so that it covers the areas with the corresponding icons to modify the cost and actions at these spots.

WINTER FAIR

Place this tile next to the Town Board. During End Game Scoring, gain more points from Buildings as indicated.
